Customer Reviews

If you know that your habits are a big part of who you are, and you want to instill some of the key habits that will help you become a bestselling author, then I think you owe it to yourself to see (and take action on) what this book has to offer. I've been following Jennifer Blanchard for number of months now, and around March 1st of this year, she announced a 30-day challenge called, "Align Your Writing Habits to Success." Being the emerging novelist that I am, I decided to jump in. What I jumped into is what you'll discover in this book, the content of which is delivered in a day-by-day challenge format. Virtually each day of the month, I eagerly awaited Jen's daily lesson and assignment, which I did my best to listen do and take action on. One thing that was great about this

was that, on Facebook, Jen has gathered a group of emerging novelists. This group functions as a support group to help you in your endeavors. And by extension, you get access to that group, as well as links to the motivational recordings Jen created during this challenge. The links are in the Kindle book. Access to the group, as well as links to the audios, definitely add value to this habit-building guide. It's not just a book you read and put away. Nope. It's a message you read, listen to, let sink in, take action on, and a group you become a part of. If there's anything missing, it's perhaps a table of contents. That would've been helpful, but its absence doesn't really take much away from the guide. You can likely find what you're looking for very easily. Overall, you're getting a lot of value in this, and if you're serious enough to create bestselling habits, you may remember this guide as the spark that lit a fire under you, and got you to create the masterpiece the world wants to read.

I actually did this thirty day plan. It did not work. There was too much visioning and not enough getting your butt in the chair. The book is copied from a course the author gave online. She did not evaluate what worked and what did not work in the course after she gave it. Simply published it as is. It is supposed to be a thirty day plan but there is no progression as you move through the month. Some of the days seem like they are fillers to get to the end of the month. I think the author would do well to review this course and take out some of the lessons that did not work and put some thought into what order the lessons should be presented. I am not sure but I think you can download this for free from her website.

Excellent advice for writers who are struggling to "get it done". This is a clearly defined road map to creating productive habits by consistent application of specific life-style routines and mind-set. These truths may be successfully applied to any career or to any efforts at success.

I find Blanchard's books to be helpful to novice and experienced writers. Reading *Align Your Writing Habits* was like sitting down with a friend over coffee and picking her brain for ideas on improving my writing. I recommend this book.

So far today: I discovered what was wrong with the way I was organized before. Prior to this current book I was a left brain organized-in-advance writer. With this book, Muse had me write it by the seat of my pants. Then I tried to polish up (a.k.a. editing) using my old way of doing things, Muse refused. Jennifer Blanchard's book, *Took4writers*, help me set up a new system. Before, I was using Brian Tracy's Goal Wizard app listing everything I wanted to do by a certain date and how much of it

I wanted to do. Now, I list my outcome goals, without the specifics. The dates that I put into it, I see as "check in" dates, not succeed or fail by that date. And on daily to do page, my first "To Do" is The question: What action would I take today if I were already a bestselling novelist? It's a whole new outlook. But, I now have outcomes as daily things: Wordsmithing/ do spreads for today's writing / polish a chapter. What now instead of saying these as a task that must be completed today, I view them as a suggestion to Muse.

I must admit I consider myself a pretty confident guy. (It's an unjustified ego.) Except my ego still deflates on a regular basis which requires me to reset my mind, goals, attitude, etc. Straight up, I was pleasantly blown away by this book. It gave me plenty of simple yet deep things to consider along with equipping me with a bunch of strong habits. They helped me reconnect my purpose with my goals, attitude, and much more. This book offers awesome value for a ridiculous price. Definitely get this book.

It may not be the greatest book to help a writer, but Ms. Blanchard is so charming, so friendly, you have to love it. It's like having a buddy or a teaching assistant help you with a creative writing class. This book comes with a lot of materials to support someone trying to start writing on a regular basis and it helps. Well worth the money.

This book took me on an Amazing journey of self discovery when it came to my writing habits. I have become a consistent writer since following the 30 day challenge.
