# Family-Focused Nursing Care

## Synopsis

Nurses have a unique role in redefining the way we view partnerships in healthcare. Transitioning from individualized to family-focused care is not only advocated by the Institute of Medicine; it's becoming a way of life. Families want their perspectives and choices for their loved ones to be heard. Try searching for family-focused nursing resources, and you may be surprised. Recent evidence-based research and strategies for family-focused nursing texts are hard to find. That's why we've made it our priority to deliver the most up-to-date educational resource to help nurses meet the goal of empowering patients and their families throughout the entire nursing process.

Excellent textbook for anyone looking to read up and become familiar with family nursing care. Theory-based and evidenced based. A must for today's family-focused nurse.
