Customer Reviews

This product is great! I love that the lessons are already made. Anyone can deliver these lessons effectively!

The book is great. I have used the lessons with the overhead sheets and have seen a tremendous improvement across the board with my students. They are second language learners and the structure of the word building lessons is wonderful for them. I have been pleased by all of the books from this author.

I love this program. I am using it to help my son with his spelling, reading and writing. He is excelling in spelling out words because of it. I would recommend this to anyone. I like how it starts out slow with the introduction of the vowels and increases the consonants used to create more words.

I have used this program when I was teaching and still find it helpful when tutoring. It builds from

simple CVC words to more complicated patterns.

I love this book. It is great for helping the students learn how to spell new words. Glad I bought it!
