Parenting: SINGLE PARENTS' BOOK: HOW TO BE THE BEST MOM AND DAD AT THE SAME TIME! 11 RULES ON HOW TO RAISE GREAT KIDS ALONE (Single, Parenting, Parenting Toddlers, Single Parenting)

Synopsis

+2nd BONUS BOOK INCLUDED!! NO e-MAIL OR PERSONAL DATA REQUIRED! This book is a comprehensive guide on how to raise kids as a single parent. There are a number of reasons why most end up as part of a single parent family. It may be because of divorce or the death of a partner. Isolation, financial problems, loneliness, and sometimes, aggravation from the absent partner are just some of the things being confronted by a sole parent. It may be tough for solo parents, but remember that you have choices in the course you take, whereas the children are not so fortunate. They have no say about the situation and just remain stuck with something that is out of their control. If you are a single parent and you want to know how you can properly raise your children without the help of your partner, then this book is for you. Here, you will be given tips on how to go about the situation of single parenthood. This book also hopes to answer questions regarding custody, housing, money, and a whole lot more. Finally, this book aims to give hope to single parents who may be struggling to make ends meet and raise their children to become good individuals. The solo parent situation is difficult for both the parent and the children, but it is not impossible that you can win over the situation. If the custodial adult can remain strong despite the many disappointments and problems, the outlook for the children will turn out to be excellent. One day, when your children are all grown up, something between the two of you will change. If you have done your job well, he/she will definitely choose a partner to love and fight for. But no matter what happens, you are irreplaceable. You are his/her first love. You are super Mom/Dad to your child. And that is one ultimate reward for being such a good parent, a single parent at that. And with that, let me congratulate you for a job well done....also, don't forget to check your awesome FREE bonus book, "PARENTING: HOW TO RAISE GREAT KIDS - Your Toughest Parenting Questions Answered!", at the end of this book! Get this book today! You'll be so glad you did! Read on your PC, Mac, smartphone, tablet or Kindle device.

I never thought the man Iâ™ve loved for 8 years and with whom I have 2 small children would ever cheat on me. Iâ™ve got to tell you honestly I simply could not get over this, regardless of the hardships that were waiting for me with two young children. I filed for divorce, the law was on my side and the kids remained in my care. Iâ™ve been raising my children by myself for 6 months now and in this time Iâ™ve started looking for resources for single parents. lovana Yaoâ™s book opened my mind to some things every single parent needs to know to be able to raise physically, mentally and emotionally healthy children. "Two in one" is full of advice and tips to succeed in raising, in the best conditions, the most awesome kids alone. Truly a good book.

I never thought I would be a single mother..in fact it never even crossed my mind until the day when my husband left. All of a sudden I was left all alone with my own grief over the loss of love and my boy of only two years old to raise on my own.I admit it was one of my worst periods, and putting aside my won pain and crying all the time I was extremely worried about Tom growing up with no male model, nobody to teach him "the ropes" of being a boy and then a man in life!Looking for advice on how to fill the shoes of both a mother and a father I came across this book and all I can say is WOW! In a matter of one short moth after applying the principles and guidelines learned here I feel a great big drop in the level of anxiety I was feeling and now believe that I can be "the best mom and dad" for my child. Turns out all I actually needed was a little advice and someone pointing me in the right direction

I just went through a pretty ugly divorce after 8 years of marriage, and my 3 and a half year old son has been left in my care. Itâ™s not easy raising a child all by yourself (especially as a man),

because all the responsibilities that ought to be shared now fall on a single pair of shoulders. Necessity made me look for books on the subject, to make sure my little boy has a good future development. Among others, I bought this book by Iovana Yao that, though I wish it were longer, has some strong and on-point advice that single parents can definitely benefit from. Truly a very good book, I warmly recommend it.

With baby arrives a lot of responsibilities, expectations and worrying, whether you will be good father/mom or not. There is nothing better as to be quality prepared and have clear strategy before the little one will see the first light of the world. Me and my partner want to be fully prepared, therefore we are studying everything about parenting and found this book very valuable. It helps us setup our main priorities, time management and lot of more good stuff. Now we are prepared even better for our baby. Thanks.

Raising a child alone is no joke. Being a single parent requires a lot of abilities that will help you bring your child up without a partner. The emotions and responsibilities will devour you; thus, you have to be an expert. Through reading this book will somehow help you how to combat everything. Also, this book will give you a lot of ideas from separation to parenting and how to face everything on your own. If being a single parent is giving you a hard time, you might consider reading this book. This will perhaps lighten the baggage you have been carrying for a very long time.
