Solutions For Dysfunctional Family Relationships

Synopsis

With an alarming escalating frequency families are being devastatingly torn apart by the power struggle of conflicting ideas and intentions surrounding culture, politics, race relations, education, child rearing, economics, and other concerns critical to the family structure. Are some relationships torn apart because of social, spiritual, religious, racial, and cultural viewpoints that are forced to coexist in the same place at the same time? Is the idea of cultural homogeneity within a household or long-term relationship based on a short sighted utopian flight of the imagination? This book uncovers the subversive, but aggressive, tactics often used by society/parents/children, in lopsided cross-cultural unions, that work to disconnect families from their familial root and center. This work address the challenge of imparting healthy values to a current or former spouses while also fighting to safeguard the minds and spirits of your children. To this end, *• Suicidal Family •* highlights the harmful effects of cultural mixing within the context of a long term intimate relationship or family. This work is a practical guidebook accompanied by engaging fictional narratives; complete with techniques and exercises that you can use straight away to bring order to the chaos of a split-camp relationship or family. *• Suicidal Family •* deals with the solutions needed for dating, marital, and post marriage rebalancing as a result of cross-cultural blending. Follow the lives of three couples and witness the genesis of their relationships and their well earned destinations. The author provides answers for those trying to maintain order and unity with their children, in-laws, and ex-spouses after a parental separation. Through the methods provided herein you will learn how to choose your long-term partner more wisely and end the mayhem of cross-cultural mismatching in your relationship and home.

Customer Reviews

There is not enough literature that gives solutions to the horror of a broken family. How does one prevent such a thing from happening again and how to deal with the pieces if the crash happens are some of the questions answered received in the book. Written in a relaxed prose that doesn't bog you down with technical language but filled with such cogent insight, you find yourself taking notes while enjoying a good read. I am product of a broken home and found that the insights in this book has given me a better understanding when dealing with my mate and planning for my family. Thank you so much for this Mr. H. Yuya Assaan-ANU, we definitely need more books like this if we are going to save the Black community.

This book is POWERFUL! Often times people (myself included) feel that we can mix any ingredients or personalities together haphazardly & HOPE for a sweet tasting cake of a relationship to come out of the oven! This is oftentimes not the case. But this book provides tried and true recipes for the morsels of family decadence we all desire. While this book is an easy read...it poses a deep journey to travel for innerstanding, understanding & execution. If you're serious about shaping your internal spirit, baring your soul & putting in the work to create a solid couples' creed, a strong family foundation, and a healthy collective community: this book is a must-read & a reference you can always revisit. HRU Yuya's book is a cookbook to life's real sweetness & an almanac for authentic happiness. Give it a try! Happy baking and planting! Hotep! ~DD~

This book taught me extremely valuable lessons about family planning and mate selection. Coherently written, short and to the point, enjoyable to read (definitely a "can't put it down"), excellent story-line, thought provoking, with uniquely articulated lessons that left me feeling much more versed on the topic than prior to reading it. I have studied the topic of mate selection and have not come across any literature that dare touch upon such potentially explosive topics. This boldly written piece of work gives practical instructions without feeling bored or having to read for days.

This is a great book for anyone of dating age who is considering taking a relationship further into family planning. Extraordinary piece of work.

I've read books about relationships that are either geared toward men or geared toward women. This one covers both and is not afraid to address us, as Afrikans in the Diaspora, directly. It's funny, it's witty, and it has tons of jewels throughout its pages that will cause you to raise your children with a completely different and functional plan for creating stable families in our communities. It addresses what happens when we have children with people who have a different belief system, culture, or total different outlook on the world and more. I'd recommend that this book be read by either sex, because again it addresses both, and if you're in a relationship, both of you should read it. Swap notes and ideas, discuss the characters and their relationship attempts and actually GROW as a power couple.
