As a single work at home mom, I found many useful bits of info in this book. It is also full of great resources on how to maintain good health while trying to balance being a mom and a businesswoman.

Lively conversational style is fun and easy to read. Lisa has so many insights and ideas to help manage everyday problems specific. I had tons of take-aways...loved the stress management ideas, empowering your kids and so many more. I'll refer to it from time to time...loved it!

What a fantastic book!! It is full of actual tools and 'lessons' to help anyone find their strength in single parenting and find their sense of self again. Very balanced and truly motivating!.-jn

This book takes a very positive approach to being a single mother with numerous tips and real-life experiences to make you feel like you're not alone. I was very inspired!

I couldn't get past the first chapter! Way too many spelling and grammatical errors. Unfortunately, that proved too much of a distraction to continue.
