Customer Reviews

Awesome physics book! However, it is more of a mathematical approach which may be confusing to most people. Also, if proofs are shown, this book will just be P-E-R-F-E-C-T.

I ordered this book because I was told I needed itfor my summer classes.It came on time and was like new! I was very pleased about this,because many sites sold the same book for over $300--glad I didn't buy it there!

The text was received in great condition.

Great quality, awesome price !!!!
