Customer Reviews

I bought these at Barnes and Noble tonight. They are nice and I think they'll help my daughter but they aren't even a thick card stock. I might have them laminated but I wish I would have bought the other set you can use dry erase markers on and worried taught phonics and sight words another way.

I am home schooling a 4 year old from these cards and not he is in K reading.

My 3yr old daughter loves when I bring these out for some activities. Great purchase. There are plenty of cards in the pack to make it last quite a while.
