## Customer Reviews

Great for people with short attention spans & big ambitions. Who easily get depressed when running out of steam during big plans. Does that make us bipolar? Perfect place to rest your eyes while having a nervous breakdown. I've given a bunch of them away to faint of heart friends. Keep mine by my side, in my holster. Don't leave home without it.

Absolutely love this book! Decided that my boyfriend and I need to start our days off by reading something inspiring and intelligent rather than scrolling through social media. This book is perfect! We are both bodybuilders currently on prep, and it gets mentally draining very quickly. This book definitely helps brighten our day and remind us why we do what we do.

I love this little book. The best way to utilize it in my opinion is to simply open it up anywhere and read a few quotes. Every morning I will read a page or two to get my day motivated. I've given three away as gifts already. It's filled with great quotes. Only thing I'm not thrilled about is there doesn't seem to be any order of the way the quotes are organized.

I'm not usually a fan of this kind of book, but this book is truly impressive. Packed with brief thoughts that carry a punch. They are truly wise and inspiring. If you think about them and follow through with them I guarantee you will be successful...I know, because I've utilized many of these outlooks, and I've consistently been at the top throughout school and professionally. As have my kids. This summarizes what I've learned the hard way, and I learned even more reading this. It consists of quotes drawn from politicians, philosophers, writers, rappers, in fact every type of person from most every century and walk of life. An easy way to become a better person.

Put this book next to the toilet.

The book is full of great quotes that motivate you when you need it. Very easy to browse. I go to a random page and read a quote for the day.

Powerful short little quotes, that will expand your horizon

I love motivational quotes and this collection is great!!
