This is NOT a book about how to land a husband. Your ultimate goal is to become the companion of

a wealthy "sponsor" who will provide you with housing, clothing, a car, vacations, money to start a business or whatever else you need financially, in return for fulfilling his need to take care of a prized possession. Sex is something doled out rarely, if at all. If you give up the goodies too soon, he will walk away and you will feel like a cheap lay (because you are). I would have been skeptical about the reality of achieving this type of relationship, but a good friend has a multi-billionaire sponsor that (much to my and my friends' incredulity) does NOT sleep with her - ever. A misconception about having a sugar daddy is that they want sex. No, they want to know they "own" you. My friend's sponsor expects her to be at his beck and call at all hours to take care of the personal details of his life, fly with him all over California for business and to make his old cronies jealous, and never, ever tell him "No." So she plays the helpless little girl (even though she's a couple decades younger, but still nearly 40) who runs certain aspects of his life, and he plays the beneficent father figure. He dresses her in designer clothes (Chanel, Gucci, Celine), pays her 2 kids' tuition at private school, buys her "toys" like an iMac, and has bought her not one but 2 cars - a 2015 Mercedes SUV this past Christmas and a Mini Cooper for her nanny. Swear to God. Oh, and he's married, so she gets a break when he has to spend time with the Mrs. I couldn't figure out how she did it, and what exactly made their relationship "tick." Now I know - this book tells you how.
