Customer Reviews

Excellent. Great material for German learners and the most important thing is that he provides audio. In my opinion this shows customers are important for this writer. Thank you very much for the audio part.

I love this book a lot!! am only about 20% in because this book contains a lot of chapters and I want to slowly go over each chapter by reading every text out-loud a few times. I am around A2 and questionably B1 (haha) and I find the text to be quite easy and fun to read. The book is very useful for building vocabulary and making you feel comfortable with the way the language is structured. Listen to the audio on youtube! I just wish the audio was in mp3 because that would make everything easier for me to listen to outside. For the price, you cannot find a better deal! :D

Very nice book. I read it together with my students in class and they really enjoy to be able to read such a variety of texts with ease. There is also an audio book of the chapters on youtube which complements the book. Good choice for German-learners.

Wow, what a great book to begin learning German. You can tell in the forty lessons, that there is a clear plan to introduce new vocabulary. But you're never 'overwhelmed' because the writer cleverly repeats phrases to reinforce the vocabulary. Never boring, always interesting, this book proceeds in a logical way that's engaging and done in bite-size blocks of text in each lesson so you're really able to absorb the material easily and almost without effort. A great book and a 'no-brainer' price. Don't forget to go to the authors site/channel for the audio if you want to include a comprehension element to the experience. I just LOVE this book and the audio that goes with it. Great job! Highly recommended! Daniel LÃ©o SimpsonComposerSan Francisco

I was pleasantly surprised with this one. Most "learn ..." books are too basic or too focused on grammar (I don't even like grammar lessons in my native language). This one starts simple and brings you along at a steady progressing pace. I learned a lot from this book. I highly recommend it for the intermediate, or even beginner, wanting to get to a good conversation level or beyond the nursery rhyme / children books and to novels.

This book is ideal for learning useful vocabulary, when your level is still not high but you are already able to understand basic German. Ideal if you can read it with a kindle and using the dictionary you can quickly translated new words. It has quite a number of chapters (around 70) and each of them has several texts of about 1 page. I love this book!!!!
