Texting Men The Smart Way: How To Use Texting To Attract Mr.Right And Keep Your Relationship Fresh (Dating Advice For Women)

Synopsis

You Can Use Powerful Text Messaging Techniques To Attract Mr.Right and Keep Your Relationship Fresh, Fun, and Exciting!Text messaging is very easy and something that most people do on a daily basis. However, there is a huge difference between texting your friends and texting a man you are interested in. Sure, you can just put together a quick message and hit send, but will this message increase your chances of getting serious with him, or will it shatter your chances completely?A properly composed text message could mean the difference between being viewed as a potential future girlfriend or just a girl to have fun with while he looks for someone better.If you are married or in a committed relationship, you can use well-written text messages to make your love life a lot more fun and exciting. The right texting technique can also rejuvenate a relationship that has been stuck in a rut.Whether you are married or dating, this book has the right texting techniques for you.Ladies who are looking to find the right man will learn:- How to decipher a man's true intentions based on how he texts. - When to text him and how to do it the right way.- How to use simple messages to become irresistibly attractive.- How to flirt via text message without giving him the wrong impression.- How to avoid texting blunders with the man you are interested in.Ladies who are married or in a serious relationship will learn:- How to make him feel loved and appreciated by sending one simple text message.- How to get him to want to send you cute spontaneous messages.- How to get him excited every time he receives a text from you. - How to revive a stagnant relationship.- How to make him want to be more romantic.- How to keep things fun, fresh, and exciting.This book contains dating advice for women in relationships and those who are still looking for the right man. All the dating and relationship advice in this book is geared towards texting attraction.Once you hit the send button on your phone there is no undoing it. Therefore, get a copy of this book, make your words convey the right message, and makes yourself more attractive in his mind.

Customer Reviews

I always thought texting was for communicating info, making plans and keeping people up to date on my location. But after reading this book I now know that texting is about so much more. This book is written for women but guys can use this practical advice too. The techniques Ray Lemon shows in this book teach you how to send texts that get someone's attention, spark friendship, keep a friendship going, figure out if someone does or does not want to move ahead in a relationship, flirt or spice up a tired relationship. There is even a whole section with tips for sexy texting with that special someone. Ray also sheds light on what it means when you or the other person texts first, when someone does or does not reply right away, when to reply and when to cool someone off who is too sexual with their text messaging. I think a lot of people will benefit from reading this book (guys included) because texting is a major part of how people communicate, and it's not just for making plans or telling people where you are. It would be cool if there was another chapter on using emojis, instant messaging, snapchat and instagram - but maybe these topics are for another book.

I really enjoyed this easy-read e-book on the smart way to text men. It provides fun, creative ways to grab and keep a guy's attention through texting. I actually used some of the techniques in this book and kept my new guy interested and wanting more. The leading questions work especially well. I would recommend this book for women starting a new relationship and women who are in a marriage or committed relationship, looking to find creative ways to light his fire.

I'm glad I found this book. "Texting Men", has tons of ideas, tips, strategies, to help you communicate

the smart way, instead of making the same old mistake, and letting the man of your dreams slip away.

-Thanks

This book was awesome. It has a lot more advice for women in relationships than single women but a lot of these texting techniques were totally new to me and were very helpful so far. This is a great book to have in your collection because you can come back to it over and over again for good texting ideas.

The only good thing about this book is that a tree didn't die to print this waste of words. Even if you got it for free, it would be a waste of your time. Could possibly be useful if you are twelve years old and don't have a clue. If you want a book written for grownups, Gregg Michaelsen wrote a great one. Actually anything by Gregg Michaelsen is spot on, especially Social Tiggers.

This was a very good book on the art of texting. Of course the focus is on how a woman should use texting with men and discusses what is appropriate and what is not. The author also discusses the right and wrong ways to text a member of the opposite sex like when it is best to answer. It's a nice little discussion on texting men!

This book is not worth the money, and I am not sure if anyone should follow the advice given. The only plus is the kindle price

Complete waste of money. It's more like a newspaper article. Too short and shallow. Don't waste your 4 dollars buying this, rather google for the same advice for free. The fair price for this should have been. 99cents.
