# Hair Transplant 360 For Physicians

## Synopsis

This is a completely revised and expanded edition of Hair Transplant 360 for Physicians, Volume 1, edited by Samuel M Lam, Director of the Lam Institute for Hair Restoration Plano, Texas, featuring extensive discussion of bioenhancement technology. The book is divided into two parts: part one focuses on preoperative, operative and postoperative care. Chapter one features brand new and updated information on several therapies, and discussion on medical hair loss conditions. Chapter two includes completely revised guidance on operative technique, with a range of step-by-step techniques including hairline design, donor harvesting and recipient-site creation. The post-operative chapter includes discussion on creating standardised hair-transplant photography, leadership, office management and marketing. The second part of the book contains new case studies in hair transplantation, and a final chapter on physician training, which is demonstrated on a DVD-ROM. The DVD has been expanded and updated to cover hairline design using human models, donor harvesting, and recipient-site practice, making Hair Transplant 360 for Physicians, Volume 1 an ideal resource for hair transplant physicians in training. Key Points \* Revised and expanded second edition \* Previous edition published 2011 (9789350251782) \*263 full colour images and illustrations \* DVD-ROM including step-by-step demonstrations for trainee physicians \* Edited by Samuel M Lam, Director, Lam Institute for Hair Restoration Plano, Texas, USA
