Synopsis

PTCE (Pharmacy Technician Certification Exam) Flashcard Book 400 Questions & Answers You Need to Know Written by a seasoned pharmacy technician instructor, this PTCE study supplement covers everything you need to know for the exam: assisting the pharmacist in serving patients, maintaining medication and inventory control systems, and participating in the management of pharmacy practice. The 400 flashcards are broken down by PTCE test topics and include multiple-choice questions with detailed answers. We give you: 100 flashcards focused on the top 100 brand/generic drug names including their drug classes, indications, side effects, and special considerations; 50 flashcards focused on pharmaceutical terms and abbreviations and 250 flashcards focused on PTCE review material: Assisting the Pharmacist in Serving Patients (165 flashcards), Maintaining Medication and Inventory Control Systems (50 flashcards), and Participating in the Administration and Management of Pharmacy Practice (30 flashcards). After studying with the book, review what you've learned at REA's online Study Center. Customizable e-flashcards and 3 practice quizzes let you create your own PTCE study plan and study anywhere, anytime. You can also make your own flashcards for any topics that give you difficulty. If you're a pharmacy tech student and want extra practice and review before the exam, REA's PTCE Flashcard Book is the right Rx for your study needs.

Customer Reviews

The first 108 pages are medications to know. Pages 109-184 cover terms. 185-454 are questions and answers. There are pages that have wasted space (see picture) but honestly I like the format of this book. Each page has a term/question and the next page has the answer. The compact size makes it convenient to take anywhere.

More than just flashcards, online test prep too!! The way the book is organized and set up make it very easy to understand. It would be nice if the flashcards had the ability to be pulled out or pre cut.

My students use this book to study for the PTCB, some find it useful others do not but overall the program has a 80% pass rate with its use. Good idea for studying and I like the additional mobile app.

Excellent book! I used it and passed both Pharmacy certification exams with great scores. Convenient size to take with you and study in free moments.

Fantastic book! It will fully prepare you for the plethora of possible questions on the certification exam. I passed with a great score, all thanks to this book. Definitely a purchase that is worth it!

Really helpful questions, general pharmacy information, and drug information in the book. As well as online access to flashcards and practice quizzes that are styled after the actual PTCE!! I passed the PTCE by using this review book/online review, as well as other resources.

Lovely review book. Will recommended it over and over again. I am not giving the new book a five because the online test you get when you get the new book not worth the extra price. The old book still works perfectly if well studied.

I have to say, that given I have been taking many practice tests over many different venues, this one has the most errors...not good since some folks dont learn from the mistakes of editors, but I do thankfully....here you go just to name a few..I took the quizzes online, (I dont know if the errors

transcend on to the pages but here you go) let me warn you, even though you pick the right answer, it flags it as wrong, then in rationale it will actually site your answer as the correct one...!!!

FRUSTRATING> Quiz 1, Section 1 number 39, no matter what you do, you cannot come to that answer,dont know what calculator they used. Quiz 2, Section 1 number 10, I said the correct answer and it was sited as the correct one, but with a different choice letter...so it was right!, Quiz 2, section 1, number 13...um..YES...I was right..based on the question, and you said I was right, but it flagged a different choice as the correct answer...I guess in proof reading and trying to learn from our wrong answers we can learn we are correct, but that's plain ridiculous.!
