Synopsis

This ninth edition of the Textbook of Family Medicine, edited by Drs. Robert E. Rakel and David P. Rakel, remains your #1 choice for complete guidance on the principles of family medicine, primary care in the community, and all aspects of clinical practice. Ideal for both residents and practicing physicians, this medical reference book includes evidence-based, practical information to optimize patient care and prepare you for the ABFM exam. A clean, quick-reference layout makes it easy for you to put information to work immediately in your practice. Gain a new understanding of the patient-centered medical home and how to achieve this status in outpatient clinics. Make the most effective care decisions with help from "Evidence vs. Harm" icons that guide you through key treatments of common medical conditions. Take advantage of today's most useful online resources with a convenient list of outstanding clinical websites. Quickly spot "Best Evidence Recommendations" with special boxes located throughout the text, and glean helpful tips on diagnosis and therapy from "Key Points" boxes found on every page.

Customer Reviews

The tables in the Kindle Version were for the most part unreadable. When I contacted Elsevier, the publisher I was told that I would have to purchase another version in order to get readable tables. I think the publisher should make the tables available on line so that the purchasers of the Kindle Version can get the full value of the book. This definitely will affect my future purchases from this publisher.

It comes with the ability to download the book onto your iPad which gives best of both worlds.
Chapters clear with broad content.

Definitely school text material reading good for beginner student or someone brushing up if you have the time to read it. Not good for quick reference.
