Customer Reviews

The book was great what i needed for class i love the price. Save me a bunch of cash just the only down fall was that the book had way to much writing inside it. 99% of the questions of the book was answer so i had to go threw and use bunch of white out.

I ordered this book for my son who was hesitating about starting college. I suggested that we order his books online instead of getting it from the book store. He received this book in a timely manner in great condition. He had zero complaints about this book. Glad we were able to order it.

I purchased this book used, but it actually was in perfect condition...not rips or folded sides or anything. Very happy with the price as well. The only thing that bothered me was it took a bit longer to get to me, but well worth the wait.

Am really pleased to be able to get used books for college classes. Book was in great shape. Got it for my daughter. Am late with this review because I just discovered this review page. Am not great with computers.

I have to refund this. I got the wrong book. I'm sorry. If it was correct then I would rate a 5 star

I gave this full rating because it got here really fast. When I opened it, it was new and wrapped so the pages weren't torn out or anything like that. Decided to buy this rather than getting a used one (i had to pay a few dollars extra but it's worth it)

Fast delivery, and it's exactly what's was says in description .. Very happy with it

Very good it was exactly what I was locking for
