# Pro-Life Answers To Pro-Choice Arguments Expanded & Updated

## Synopsis

As politicians, citizens, and families continue the raging national debate on whether it's proper to end human life in the womb, resources like Randy Alcorn's *Prolife Answers to Prochoice Arguments* have proven invaluable. With over 75,000 copies in print, this revised and updated guide offers timely information and inspiration from a "sanctity of life" perspective. Real answers to real questions about abortion appear in logical and concise form. The final chapter -- "Fifty Ways to Help Unborn Babies and Their Mothers"-- is worth the price of this book alone!

## Book Information

Paperback: 455 pages

Publisher: Multnomah; Expanded and Updated ed. edition (November 10, 2000)

Language: English

ISBN-10: 1576737519

ISBN-13: 978-1576737514

Product Dimensions: 5.1 x 1.3 x 8.2 inches

Shipping Weight: 1 pounds (View shipping rates and policies)

Best Sellers Rank: #230,118 in Books (See Top 100 in Books) #33 in [Books > Politics & Social Sciences > Women's Studies > Abortion & Birth Control](#) #287 in [Books > Politics & Social Sciences > Politics & Government > Elections & Political Process > General](#) #358 in [Books > Christian Books & Bibles > Theology > Ethics](#)

## Customer Reviews

As a non-Christian, non-religious, feminist liberal, I arrived at my pro-life position not by opening up a Bible, but by reading the reproduction chapter in an anatomy and physiology book, and studying the photos. I volunteer this information about myself, because I share a demographic with many of the pro-choice folks who are at the receiving end of Randy Alcorn's answers in this book. *ProLife Answers* is impressive: well organized and easy to use, well referenced, easy to read, and is largely based on good science and logic. First I'll tell you why I like the book, and discuss why I deducted a star. What I liked: \* Well organized and easy to use: The book is divided into sections for each category of argument: (1) life humanity and personhood, (2) rights and fairness, (3) social issues, (4) health and safety, (5) the hard cases, (6) the character of proliferers. Each argument is numbered and has anywhere from 4 to about 11 rebuttals, which are numbered and lettered for easy reference. \* Well referenced: This book contains 789 references. Not all are primary sources, but he

does cite peer-reviewed medical journals when discussing scientific matters. Other references include popular media, other books, and personal interviews. Note that in trying to debunk his arguments, some may take issue with some of the personal interviews, because these sources are difficult to verify.\* Easy to read: Alcorn writes in a conversational, first person, non-inflammatory tone, which is refreshing on such a hot button topic. He shows how women who have abortions are often pressured and misled into doing something they don't realize is horrific. I believe readers of this book will save more babies by taking on Mr. Alcorn's tones of compassion and logic, rather than tones of angry rhetoric.
